About Me

I am Luthfi Erlangga Hermawan, a fresh graduate from Gunadarma University with a Bachelor's degree in Engineering. I have experience in Data Science through two certified courses and self-study. Additionally, I have experience using Unity to create 2D and 3D games, and I am currently learning web development (HTML, CSS, Javascript for frontend and Node.js, MongoDB for backend) and 3D design with Blender. I am also open to learn other valuable skills.
